Superintendent-Principal's Message

We welcome you to Knights Ferry School. The “Little School on the Hill” with a tradition of excellence! Our community is as cute inside as it is outside. We are situated in a quiet corner of Stanislaus County, very close to the Stanislaus River. We utilize our natural resources for many community based activities including science, physical education and giving back to our local community.

We believe learning should be fun and our classrooms are dynamic with many hands-on instructional practices and activities. We take field trips to many different places and plan fun, community building activities throughout the year.

We believe in child centered learning and demonstrate that in the classroom everyday where we modify instruction for student needs, whether that means more supported instruction or acceleration. We strive to give each student what they need to be successful. Our WIN- What I Need program provides intensive group instruction for students in reading outside their regular classroom. Our long-term focus on reading skills has boosted our test scores to the “high” range on the CA Dashboard and we have many students who are reading above their grade level, and loving it! In order to reward our students for their hard work, this year we created school-wide field trips for all students who meet their Accelerated Reading Goals. That’s right, all students!

We believe that we, as a staff, should also be learning and striving to bring out our best selves every day to the children we serve. We are committed to always improving.

We believe in involving parents in their child’s education and promote this through activities like our Blacktop Socials. Parents are encouraged to come, have some coffee, talk to their child’s teacher, administrators, board members and each other. KFS believes in community and we believe in creating an environment where everyone feels at home. Our community thrives on parent support in the classroom and volunteers are welcomed at all levels.

We believe in Bobcat Pride and in our ROARS values that we promote everyday: RESPECT, taking OWNERSHIP, positive ATTITUDE, being RESPONSIBLE, and being SAFE.

We believe in our students, our community and each other and we invite you to become part of our school community.

Dr. Janet Lindgren
